FERRY DOCK RELOCATION STUDY

JUNE 26
6PM-7:30PM

COMMUNITY VISIONING SESSION

The Charlevoix City Council has initiated a planning study to explore the current Beaver Island Ferry Dock site in downtown Charlevoix, including the potential relocation of the Ferry operation to an alternate location. This effort will include extensive community outreach to explore the best use of the current Ferry Dock site downtown, potential integration of the Ferry operation with the boat launch near Ferry Beach, and other possible alternatives. Please join us for a presentation and community visioning session to share your thoughts and vision for the waterfront in Charlevoix. Hope to see you there!
