

SEWER RATE REDUCTION APPLICATION FORM

FOR LAWN SPRINKLING

I request that the City of Charlevoix bill my summer sewer charges for the July, August & September billing (beginning with the June meter read) for summer sprinkling. I understand the rate break applies to my sewer charges only, and I will continue to pay the full water rate during the summer sprinkling reduction period. At present the sewer factor is 1.45% of the water charge which is reduced to 1.09% for in-city customers and the factor will change from 108% to 80% for rural sewer customers. I understand this is an annual program and I will have to reapply for a similar reduction next year if applicable. This program is limited to residential users (with single meters) only, **who do not have sprinkling meters.**
